

Pet Shaped Biscuits

Ingredients

8oz / 225g Self Raising Flour
4oz / 110g Caster Sugar
4oz / 110g Margarine
Rind and juice of 1/2 lemon

Method

1. Place the flour and margarine in a bowl and rub together using your fingers.
2. Add sugar and continue to rub in with your fingers.
3. Add the egg and lemon rind and juice, mix well and form into a ball.
4. Wrap in cling film or put into a container and chill in the fridge for 30 minutes.
5. Roll out to about 1/2cm thick and cut into whatever shapes you want. (You can use a cutter or just a knife like you would use to eat your dinner to cut out the shape of your pet.)
6. This mix will make quite a lot of biscuits so you might want to make one or two special pet biscuits and use the rest of the mixture to make some round biscuits if that's easier.
7. Place your biscuits onto a baking tray and bake in the oven for 15 minutes at 175C.
8. Once the biscuits are ready place them on a cooling rack.
9. When they are completely cool you can decorate them using icing, chocolate or whatever you like.
10. Why not upload a photo of your biscuits using the #NPMonline so we can see your creations?
